## OUR MISSION

To build an evidence-based, consumer-driven Canadian chicken industry that provides opportunities for profitable growth for all stakeholders.

## NOTRE MISSION

Créer une industrie canadienne du poulet fondée sur des faits vérifiables, capable de répondre aux besoins des consommateurs et d'offrir à tous les intervenants une occasion de croissance rentable.

Chicken Farmers of Canada

## Table of Contents

***Introduction to CFC***

Who we are and what we do ..... i

*Structure of the Canadian Chicken Industry*

Population of Canada and the Provinces on July 1 ..... 1
Number of Chicken Producers by Province ..... 2
Average Farm Size by Province ..... 2
Farm Cash Receipts (FCR) ..... 3
Number of Suppliers and Poultry Processing Plants by Province ..... 4
Estimated Chicken Consumption in Various Market Sectors ..... 5

*Supply and Demand*

Annual Production ..... 6
Periodic Quota Utilization ..... 7
Storage Stocks on December 31 ..... 8
Import Permits Issued Under the Tariff Rate Quota ..... 9
Supplementary Import Permits Issued ..... 9
Exports by Province ..... 10
Exports by Destination ..... 10
Canadian Chicken Supply and Disposition ..... 11
Per Capita Consumption of Various Meats in Canada ..... 12
Share of Meat Consumption in Canada ..... 13

## Table des matières

***Introduction des PPC***

Qui sommes-nous ? Que faisons-nous ? ..... i

*Structure de l'industrie canadienne du poulet*

Population du Canada et des provinces au 1er juillet ..... 1
Nombre de producteurs de poulet par province ..... 2
Taille moyenne des fermes par province ..... 2
Recettes monétaires agricoles (RMA) ..... 3
Nombre de fournisseurs et d'usines de transformation de volailles par province ..... 4
Estimation du niveau de consommation de poulet pour les divers secteurs du marché ..... 5

*Offre et demande*

Production annuelle ..... 6
Utilisation périodique des contingents ..... 7
Stocks en entrepôt au 31 décembre ..... 8
Permis d'importation émis sous le contingent tarifaire ..... 9
Permis d'importation supplémentaire émis ..... 9
Exportations par province ..... 10
Exportations par destination ..... 10
Approvisionnement et écoulement du poulet au Canada ..... 11
Consommation par habitant des différentes viandes au Canada ..... 12
Répartition de la consommation des viandes au Canada ..... 13

*Prices*

Average Producer Prices for Broilers ..... 14
Average Processor Prices for Broilers ..... 15
Average Retail Prices for Broilers ..... 16
Average Retail Prices for Selected Parts ..... 17

Consumer Price Index for Chicken and Other Items ..... 18

*International Markets*

U.S. Chicken Supply and Disposition ..... 19
Per Capita Consumption of Various Meats in the U.S. ..... 20
Share of Meat Consumption in the U.S. ..... 21
Average U.S. Chicken prices – Whole Bird ..... 22

U.S. Consumer Price Index for Chicken and Other Items ..... 23
The Ten Leading Chicken Producing Countries ..... 24
Countries with the Highest Per Capita Consumption of Chicken ..... 24
The Ten Leading Chicken Importing and Exporting Countries 25
Glossary ..... 26

*Prix*

Moyenne des prix aux producteurs pour le poulet à griller ..... 14
Moyenne des prix aux transformateurs pour le poulet à griller ..... 15
Moyenne des prix de détail pour le poulet à griller ..... 16
Moyenne des prix de détail pour les découpes sélectionnées ..... 17

L'indice des prix à la consommation pour le poulet et autres articles ..... 18

*Marchés internationaux*

Approvisionnement et écoulement du poulet aux É.-U. ..... 19
Consommation par habitant des différentes viandes aux É.-U. ..... 20
Répartition de la consommation des viandes aux É.-U. ..... 21
Moyenne des prix du poulet aux É.-U. – poulet entier ..... 22

L'indice des prix à la consommation pour le poulet et autres articles aux É.-U. ..... 23
Les dix plus importants pays producteurs de poulet ..... 24
Les pays où la consommation de poulet par habitant est la plus élevée ..... 24
Les dix plus importants importateurs et exportateurs de poulet 25
Glossaire ..... 27

## WHO WE ARE AND WHAT WE DO. . .

- Chicken Farmers of Canada (CFC) is a national farmer-run organization. We are completely funded through levies that farmers pay according to the amount of chicken marketed. We do not receive any government subsidies.
- Our main responsibility is to ensure that our 2,800 farmers produce enough chicken to meet the needs of the marketplace. The system that we operate under is commonly known as supply management.
- We encourage co-operation throughout the chicken industry and promote the consumption of chicken in Canada.
- Canadians love to eat chicken! Last year, Canadians each consumed 30.5 kilograms of chicken. Our farmers are proud to grow the chicken that Canadians love!

## QUI SOMMES-NOUS ? QUE FAISONS-NOUS ?

- Les producteurs de poulet du Canada (PPC) est un organisme national, dirigé par les producteurs et financé entièrement à même les prélèvements perçus auprès des producteurs. Nous ne recevons aucune subvention gouvernementale.
- Il nous incombe principalement de veiller à ce que nos 2 800 éleveurs produisent assez de poulet pour répondre aux besoins du marché. Le système qui régit notre fonctionnement est communément appelé gestion de l'offre.
- Nous encourageons la collaboration entre tous les intervenants de l'industrie du poulet et nous faisons la promotion du poulet au Canada.
- Les Canadiens et Canadiennes adorent leur poulet ! L'année dernière, les consommateurs en ont mangé 30,5 kilogrammes chacun. Nos producteurs sont fiers de fournir aux Canadiens et Canadiennes le poulet qu'ils adorent !

## GLOSSARY

**Allocation:** The allocation by CFC to a province for a period fixing the quantity of chicken that may be marketed by producers of that province in interprovincial and export trade.

**Consumer Price Index (CPI):** An index of consumer-related purchase prices.

**Consumption:** Total domestic consumption in a given time period, includes domestic production, imports of chicken products and any chicken products that are moved into the market from frozen stocks and excludes any exports and chicken products that move into frozen inventories. Per capita consumption also includes an estimate for on-farm consumption.

**Ending Stocks**: Level of frozen inventories at the end of the month or year.

**Farm Cash Receipts (FCR):** The cash income received from the sale of agriculture commodities as well as direct program payments made to support the agricultural sector.

**Further Processing**: The production of value-added or specialized chicken products such as skinned and deboned breasts, nuggets, TV dinners and pot pies.

**Opening Stocks:** Level of frozen inventories at the beginning of the month or year.

**Period**: Periods were established by CFC for production quota allocation. In 2003:
**Period A-49:** November 17, 2002 - January 11, 2003
**Period A-50:** January 12, 2003 to March 8, 2003
**Period A-51:** March 9, 2003 to May 3, 2003
**Period A-52:** May 4, 2003 to June 28, 2003
**Period A-53:** June 29, 2003 to August 23, 2003
**Period A-54:** August 24, 2003 to October 18, 2003
**Period A-55:** October 19, 2003 to December 13, 2003
**Period A-56:** December 14, 2003 to February 7, 2004

**Processor Price:** Price paid to processors by their buyers for chicken (per kg, eviscerated weight).

**Producer Price:** Price paid to producers by processors for chicken (per kg, live weight).

**Retail Price**: Price paid by consumers for chicken, including specials (per kg, eviscerated weight).

**Supplementary Imports**: Imports requiring a special import permit to accommodate temporary market shortages, granted by International Trade Canada.

**Tariff Rate Quota (TRQ):** Annual volume of imports of chicken and chicken products allowed into Canada at in-quota tariff rates. The TRQ, which is equal to 7.5% of the previous year's production, is administered through permits issued by International Trade Canada.

## GLOSSAIRE

**Allocation :** L'allocation faite à une province par les PPC, pour une période déterminée, de la quantité de poulets que peuvent commercialiser les producteurs de cette province dans le commerce interprovincial et d'exportation.

**Consommation :** Le total de la consommation nationale de poulet au cours d'une période donnée qui comprend la production nationale, les importations de produits du poulet et les inventaires de poulet congelé réintroduits sur le marché. Les exportations de poulets et les produits qui s'ajoutent aux inventaires congelés n'en font pas partie. La consommation par habitant inclue un nombre approximatif de la consommation à la ferme.

**Contingent tarifaire (C.T.) :** Volume annuel d'importations autorisées au Canada frappé de faibles taux de droit à l'intérieur de l'engagement d'accès. Le contingent tarifaire, qui correspond à 7.5 % de la production de l'année précédente, est géré par le biais de permis émis par Commerce international Canada.

**Importations supplémentaires :** Importations nécessitant un permis spécial émis par Commerce international Canada pour combler une pénurie temporaire sur le marché.

**Indice des prix à la consommation (IPC) :** Un indice des prix d'achat reliés à la consommation.

**Période :** Les périodes furent établies par les PPC pour l'allocation des contingents de production. En 2003 :
la **période A-49** va du 17 novembre 2002 au 11 janvier 2003
la **période A-50** va du 12 janvier au 8 mars 2003
la **période A-51** va du 9 mars au 3 mai 2003
la **période A-52** va du 4 mai au 28 juin 2003
la **période A-53** va du 29 juin au 23 août 2003
la **période A-54** va du 24 août au 18 octobre 2003
la **période A-55** va du 19 octobre au 13 décembre 2003
la **période A-56** va du 14 décembre 2003 au 7 février 2004

**Prix au producteur :** Le prix versé aux producteurs par les transformateurs par kilogramme de poulet (sur la base du poids vivant).

**Prix au transformateur :** Le prix versé aux transformateurs par leurs acheteurs pour les produits de poulet (sur la base du poids éviscéré).

**Prix de détail :** Le prix que payent les consommateurs pour les produits de poulet, incluant les articles en réclame (sur la base du poids éviscéré).

**Recettes monétaires agricoles (RMA) :** Le revenu monétaire découlant de la vente de produits agricoles et les programmes de paiements directs à titre de soutien au secteur agricole.

**Stocks de clôture :** Niveau des inventaires de poulet congelé, à la fin d'un mois ou d'une année.

**Stocks d'ouverture :** Niveau des inventaires de produit congelé, au début d'un mois ou d'une année.

**Surtransformation :** La production de produits de poulet spécialisés ou à valeur ajoutée comme les poitrines sans peau et désossées, les croquettes, les repas T.V. congelés, et les petits pâtés.
